Work Experience

Macys

Associate / December 2018 – September 2019

Worked closely with front-end staff to assist customers. Inspected items for damage and reported to the supervisor to return unsalable merchandise and obtain replacements for customers. Answered questions about and demonstrated features of diverse merchandise to facilitate customer sales. Read weekly sales inserts and tracked changing prices to remain up-to-date on store promotions. Learned roles of other departments to provide coverage and keep store operational. Maximized customer satisfaction by aiding with purchase, locating items and signing up for rewards programs. Collected merchandise from the store and searched back-end locations for customer purchases

Software & skills

Good Knowledge	Python, HTML, Tableau
Python Packages	Pandas, NumPy, Matplotlib, Flask
Web Applications	HTML, CSS, JavaScript, Flask
Others	Git, GitHub

Strengths

Hardworking. Humble. Empathetic. Learner, and will put in time to learn quickly on the job. Customer focused (learnt the importance of this during my Macy's stint)

Education

2009 – 2014	**Bachelor's in Technology, Information Technology** Jawaharlal Nehru Technological University, India

Intermediate knowledge of HTML5

Portfolio

Website for Vacation Rental

Used WIX platform to build vacation rental website for a condo in Alabama. Added ability to choose the time for reservation and showcase nearby attractions to see.

Website for Organic Soaps Display

Used Python, Flask to build backend of the website for API's. Developed the frontend of the web page using HTML5, CSS3 JavaScript, Bootstrap, JQuery.

Dashboards

Developed several complex mappings and reusable transformations to facilitate one time, Daily,Monthly and Yearly loading of data. Used various transformations like filters, Expressions, Sequence generator,joiner,Router and lookup transformations to create mappings. Hands-on with creating solution driven dashboards by developing different chart types including Geo maps, symbol maps, and others.
